

Santen Opens its Shenyang Representative Office

April 2, 2007, Osaka, Japan – Santen Pharmaceutical Co., Ltd. announced that it opened its Shenyang Representative Office in China on April 1, 2007.

Through its three local offices in Beijing, Guangzhou and Shanghai, Santen has conducted the collection and communication of academic medical information in China. The new Shenyang office will serve the Northeastern China centering on Shenyang, enabling Santen to distribute its drug information and gather information on the medical needs accurately and timely in this region. With the four local offices, Santen endeavors to penetrate its products and Santen brand into the Chinese market.

The Chief Representative for the Beijing offices serves concurrently as the Chief Representative of the new Shenyang office. The office operates with a staff of 13, including medical representatives.
