Santen to Present Latest Data on STN2000100
at COS 2021 and 9th WGC

Santen Pharmaceutical Co., Ltd. (Head Office in Osaka, hereinafter “Santen”) announced today that some publications related to the glaucoma surgical device, STN2000100 (DE-128) will be presented at the Canadian Ophthalmological Society annual meeting (COS 2021, <https://cos2021.cos-sco.ca/sites/cos-sco/en/cos2021/>) from June 24 to 27, 2021, and 9th World Glaucoma E-congress (9th WGC, <https://worldglaucomacongress.org/>) from June 30 to July 3, 2021.

STN2000100 has been launched in Europe as *PRESERFLO MicroShunt* and Santen successively filed for marketing approval in Asia. Santen submitted the Premarket Approval (PMA) application in the U.S. In the conferences, some presentations including two-year data from a clinical study in the U.S. and Europe, INN-005, will be conducted.

In addition, Glaukos Corporation (San Clemente, CA, U.S.) is responsible for developing and selling products in the Americas, Australia, and New Zealand.
