3. In any of the following cases, please stop using the product, take this information form to your doctor, pharmacist, or registered pharmaceutical distributor and seek consultation.
 - (1) If blurriness of the eyes does not improve
 - (2) If symptoms do not improve within 2 days of use
4. Even if you see improvement of symptoms, take this information form to your doctor, pharmacist, or registered pharmaceutical distributor and seek consultation if using the product for more than 2 weeks.

Dosage / Administration

Instill 1 to 2 drops at a time, 4 to 6 times daily.

[Precautions regarding dosage and administration]

- (1) Observe the prescribed dosage and administration
- (2) If administered to a child, the product must be administered under the direction and observation of the child's guardian.
- (3) Do not let the tip of the bottle touch your eyes, eyelids or eyelashes (doing so could cause the solution to become contaminated with eye mucus or bacteria). Do not use the product if it does become contaminated.
- (4) Do not use the product while wearing contact lenses.
- (5) Use only as an eye drop.

How to open the twist cap

Please be sure to open the cap when the bottle is upright.

Note: If you open the bottle while squeezing it in the middle, it may cause the solution to squirt from the bottle.

● **Opening the bottle**
Grasp and twist the cap with your whole thumb.

● **Closing the cap**
Press down firmly until it stops.

Indication

Relief of the following eye allergy symptoms caused by pollen or house dust: Itchy eyes, red eyes, blurry eyes (increase in eye mucus, etc.), teary eyes, sensation of foreign body (gritty feeling)

This product contains the following excipients: edetate sodium hydrate, chlorbutanol, benzalkonium chloride, d-camphor, d-borneol, l-menthol, and pH-adjusting agent.

Precautions regarding storage and handling

- (1) Store in a cool place away from direct sunlight and keep sealed. To preserve the quality of the product, do not leave it in a hot place such as inside a car or near a heater. If the product is left in a hot place, the vials may become warped causing the solution to leak and degrading its quality. Please do not use the product in such a case.
- (2) Keep out of reach of children.
- (3) Do not transfer the solution to another receptacle. (Doing so may lead to misuse of the product or may affect its quality.)
- (4) Do not share the product with another person.
- (5) Do not use the product if it has exceeded its use-by date. Even before the use-by date, please use the product as soon as possible after opening the bottle.
- (6) Depending on the conditions of storage, the ingredients may crystallize and form white deposits around the inside of the bottle's tip or on the inside of the cap. If this occurs, gently wipe off the deposits with a clean piece of gauze before using the product.
